

SAFETY DATA SHEET according to Regulation (EU) 2020/878 of 18 June 2020		
READY-TO-USE CULTURE MEDIA		
Date of compilation: 06.11.2020	Revision: 08.11.2022	

SECTION 1: Identification of the substance/mixture and of the company/undertaking	
1.1. Product identifier	Product name: READY-TO-USE CULTURE MEDIA * Does not apply to culture media for which a safety data sheet has been issued
1.2. Relevant identified uses of the substance or mixture and uses advised against	Identified uses: Laboratory application for cultivation, identification and differentiation of microorganisms. Used exclusively by laboratory qualified personnel in microbiology lab techniques. Manipulating them requires special precautions. Professional use only Uses advised against: other than those listed above
1.3. Details of the supplier of the safety data sheet	Graso Zenon Sobiecki Krąg 4A 83-200 Starogard Gdański tel.: (58) 562 30 21 www.grasobiotech.pl e-mail: mikrobiologia@graso.com.pl
1.4. Emergency telephone number	(+48 58) 56 230 21 (7:00 to 15:00)

SECTION 2: Hazards identification																	
2.1. Classification of the substance or mixture	Classification according to Regulation (EC) No 1272/2008 (CLP) The product is not classified as hazardous according to Regulation (EC) 1272/2008																
2.2. Label elements	Labeling according to Regulation (EC) No 1272/2008 <table> <tr> <td>Signal word</td> <td>None</td> </tr> <tr> <td>Pictograms</td> <td>None</td> </tr> <tr> <td>Hazard statements</td> <td>None</td> </tr> <tr> <td>Precautionary statements</td> <td></td> </tr> <tr> <td>Prevention</td> <td>None</td> </tr> <tr> <td>Response</td> <td>None</td> </tr> <tr> <td>Storage</td> <td>None</td> </tr> <tr> <td>Removal</td> <td>None</td> </tr> </table>	Signal word	None	Pictograms	None	Hazard statements	None	Precautionary statements		Prevention	None	Response	None	Storage	None	Removal	None
Signal word	None																
Pictograms	None																
Hazard statements	None																
Precautionary statements																	
Prevention	None																
Response	None																
Storage	None																
Removal	None																
2.3. Other hazards	This mixture does not contain substances that meet the criteria for PBT or vPvB in accordance with Annex XIII.																

SAFETY DATA SHEET

according to Regulation (EU) 2020/878 of 18 June 2020

READY-TO-USE CULTURE MEDIA

Date of compilation: 06.11.2020

Revision: 08.11.2022

Page: 2/7

SECTION 3: Composition/information on ingredients

3.1. Substances - not applicable

3.2. Mixtures

Chemical nature: ready-to-use culture media

Name of substance	Identifier	Classification 1272/2008	% weight
--	--	--	--

Notes

The full meaning of the risk phrases H included in the section 16

[1] Specific concentration limits, ATE

--

[2] Substance for which there are national occupational exposure limit values

[3] Substance with a Union workplace exposure limit

[4] SVHC: substances included in the list established in accordance with Article 59 (1)

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation

Unlikely. In case of danger: contact immediately with doctor, if the state of the person is serious or if symptoms persist.

Ingestion

Rinse mouth with water. Do not induce vomiting without direct control of medical personnel. Give to drink 2-3 glasses of water. Contact doctor immediately if status of a person is serious or if symptoms persist.

Eye contact

Remove contact lenses. Immediately flush eyes with large amounts of water for at least 10-15 minutes while holding the eyelids open to ensure that the entire surface is flushed. Seek medical advice.

Skin contact

Immediately wash with water and soap and rinse thoroughly. Wash contaminated clothing before reuse. If irritation persists, seek medical attention and consult a dermatologist.

4.2. Most important symptoms and effects, both acute and delayed

No additional information available.

4.3. Indication of any immediate medical attention and special treatment needed

Seek medical advice.

In the workplace should be available measures to help before medical attention.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Unsuitable extinguishing media

Do not use water jet.

5.2. Special hazards arising from the substance or mixture

Specific hazards in case of fire

In case of fire, the following can be released harmful gases.

Explosive mixture

Not applicable-non-explosive.

---	--	--

5.3. Advice for firefighters

Wear self-contained breathing apparatus.

Special protective equipment for firefighters

Protective clothing against liquid and gaseous chemicals, including liquid aerosols and solid particles.

Self-contained breathing apparatus (SCBA).

Additional information

Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Wearing of suitable protective equipment.

Avoid contact with skin, eyes and clothes.

For emergency responders

Provide adequate ventilation when handling the product. Proceed with the principles of Good Laboratory Practice. Keep away from sources of ignition - No smoking.

6.2. Environmental precautions

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Inform the relevant authorities if the product has caused environmental pollution

6.3. Methods and material for containment and cleaning up

In the laboratory, collect the spilled product using paper towels and place in properly labeled container for disposal. Ensure adequate ventilation

Clean up affected area with liquid-binding material

Clean up area with plenty of water.

6.4. Reference to other sections

Section 8 in order to obtain information on personal protective equipment

Section 13 in order to obtain information on waste disposal

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Avoid contact with skin and eyes.

Do not eat, drink or smoke when using this product.

Use personal protective equipment.

7.2. Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations.

Store in original container in a dry, cool and ventilated, sheltered from direct sunlight.

Keep container closed and sealed until use.

Store in cool place.

Keep away from oxidizing agents, strong bases and acids.

Culture media should not be used if show signs of microbial contamination, discoloration, drying, cracks, or other signs of damage.

Use appropriate container to avoid release to the environment.

Read the content of the safety data sheet or label.

7.3. Specific end use(s)

No data available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

<		
---	--	--

Ingredients with limit values that require monitoring at the workplace

Name of the chemical agent	CAS	Limit values				Comments
		Long-term	Short-term			
--	--	ppm	mg/m ³	ppm	mg/m ³	-
DNEL/PNEC						
No data available						

8.2. Exposure controls

Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Give adequate ventilation to the premises where the product is stored and/or handled.

Individual protection measures

General protective and hygienic measures

Do not eat, drink, smoke or sniff while working. Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

Eye protection

Avoid contact. Wear safety glasses.

Hand protection

The selected protective gloves have to meet the requirements of EN 374. Use protective gloves made of latex. Dispose of contaminated gloves after use in accordance with applicable laws. Wash and dry hands.

Observe instructions on permeability and breakthrough time provided by the glove supplier.

Also take into consideration the specific local conditions under which the product is used, such as the risk of wear and tear.

Respiratory protection

Not needed for normal use. Depending on concentration and quantity of hazardous substances handled: self contained breathing apparatus or gas mask with universal canister.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	According to the specification
Colour	According to the specification
Odour	According to the specification
Melting point/freezing point	No data available
Boiling point or initial boiling point and boiling range	No data available
Flammability	No data available
Lower and upper explosion limit	No data available
Flash point	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
pH	No data available
Kinematic viscosity	No data available
Solubility	No data available
Partition coefficient n-octanol/water (log value)	No data available
Vapour pressure	No data available
Density and/or relative density	No data available

</		
---	--	--

	Relative vapour density	No data available
	Particle characteristics	No data available
9.2.	Other information	
	Information with regard to physical hazard classes	
		No data available
	Other safety characteristics	
		No data available

SECTION 10: Stability and reactivity		
10.1.	Reactivity	
	The mixture is not chemically reactive if stored and used under proper conditions.	
10.2.	Chemical stability	
	The mixture is chemically stable if stored and used under proper conditions.	
10.3.	Possibility of hazardous reactions	
	Not applicable	
10.4.	Conditions to avoid	
	No data available	
10.5.	Incompatible materials	
	No data available	
10.6.	Hazardous decomposition products	
	No hazardous decomposition products if stored and handled as prescribed/indicated.	

SECTION 11: Toxicological information		
11.1.	Information on hazard classes as defined in Regulation (EC) No 1272/2008	
	Acute toxicity	Based on available data, the classification criteria are not met.
	Skin corrosion/irritation	Based on available data, the classification criteria are not met.
	Serious eye damage/irritation	Based on available data, the classification criteria are not met.
	Respiratory or skin sensitisation	Based on available data, the classification criteria are not met.
	Germ cell mutagenicity	Based on available data, the classification criteria are not met.
	Carcinogenicity	Based on available data, the classification criteria are not met.
	Reproductive toxicity	Based on available data, the classification criteria are not met.
	STOT-single exposure	Based on available data, the classification criteria are not met.
	STOT-repeated exposure	Based on available data, the classification criteria are not met.
	Aspiration hazard	Based on available data, the classification criteria are not met.
11.2.	Information on other hazards	
	Endocrine disrupting properties	No data
	Other information	No data

---	--	--

SECTION 12: Ecological information

12.1. Toxicity

No data

12.2. Persistence and degradability

No data available

12.3. Bioaccumulative potential

No data available

12.4. Mobility in soil

No data available

12.5. Results of PBT and vPvB assessment

This mixture does not contain substances that meet the criteria for PBT or vPvB in accordance with Annex XIII.

12.6. Endocrine disrupting properties

No data available

12.7. Other adverse effects

Do not allow to enter waters, waste water or soil.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Product

Collect the product according to instructions and submit for disposal.

Waste of product

communicate with the manufacturer of the product on the possibility of processing waste. If it's not possible, deliver it to utilization in plants permitted to waste collection, transport, waste recovery and disposal. Do not empty into drains. The product must be delivered to the appropriate landfill / area for waste storage or to the specialized waste incineration facility according to the local legislation.

Waste code must be given individually at the site of waste manufacture, depending on the industry and place of use.

SECTION 14: Transport information

14.1. UN number or ID number

not applicable

14.2. UN proper shipping name

not applicable

14.3. Transport hazard class(es)

not applicable

Label no.:

not applicable

14.4. Packing group

not applicable

14.5. Environmental hazards

No

14.6. Special precautions for user

not applicable

14.7. Maritime transport in bulk according to IMO instruments

not applicable

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

- Regulation (EC) No 1272/2008 (CLP) of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (REACH).

</		
---	--	--

- REGULATION (EC) No 1907/2006 OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.
- COMMISSION REGULATION (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

15.2. Chemical safety assessment

Chemical safety assessment was not made for the product.

SECTION 16: Other information

Full text of H-phrases mentioned in section 3

none

Classification procedures according to Regulation (EC) 1272/2008

Classification based on calculation procedure.

Abbreviations and Acronyms:

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road

RID: Regulations Concerning the International Transport of Dangerous Goods by Rail

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

IATA-DGR: Dangerous Goods Regulations by the "International Air Transport Association" (IATA)

ICAO: International Civil Aviation Organization

ICAO-TI: Technical Instructions by the "International Civil Aviation Organization" (ICAO)

PP: Severe Marine Pollutant

GHS: Globally Harmonized System of Classification and Labelling of Chemicals

EINECS: European Inventory of Existing Commercial Chemical Substances

CAS: Chemical Abstracts Service (division of the American Chemical Society)

DNEL: Derived No-Effect Level (REACH)

PNEC: Predicted No-Effect Concentration (REACH)

LC50: Lethal concentration, 50 percent

LD50: Lethal dose, 50 percent

Note to readers

The product described in the safety data sheet should be stored and used in accordance with good industrial practices and in compliance with all applicable legal regulations.

The information contained in the safety data sheet is based on the current state of knowledge and is intended to describe the product in terms of health, safety and environmental regulations. It should not be considered a guarantee of any specific product properties.

We cannot make any representations or warranties regarding the accuracy or completeness of any information provided or the quality or specifications of any products, substances or mixtures discussed herein.

The user is responsible for creating conditions for the safe use of the product and for the consequences of its misuse.
